\*Flexible age rule applies to this category. See page 6 for further details

\*\* Skills test level checks will be completed for this category as part of the permitting process for each competition. See page 6 for further details

# Additional Detail on Category Requirements

## Changes for 2026-2027 Season

- Updated Crossover rule

### Skills Test Requirements

- Minimum skills test requirements must be met by the entire team.
- The minimum skills test will continue to be reviewed by the TAC committee each season.
- For international skaters there is a one-year grace period to achieve the required skills test level. Please contact [entries@iceskating.org.uk](mailto:entries@iceskating.org.uk) to do this.

### Flexible Age and Skill Level Limits

The 80/20 Rule applies to categories as indicated on pages 3-5 which follow the flexible age rule or those with skills level limits in place. The table below shows the relevant numbers according to the size of the team. This rule includes **ALL** skaters listed on the entry form.

Total Skaters	20	19	18	17	16	15	14	13	12	11	10	9	8
Within age/skill level requirements	16	15	15	14	13	12	11	10	10	9	8	7	6
Outside age/skill level requirements	4	4	3	3	3	3	3	3	2	2	2	2	2

### Advanced Adult & Adult Categories

The Adult Category age requirement is based on 50% of the skaters ACTUALLY performing the program. For example a team of 11 skaters, with 10 performing, then 5 of these skaters must be over 25.

### Crossover Rule

- A maximum of 50% of the total rostered skaters entered into an event, may also skate on another team in the same event. Please see table below for the number of skaters that would be considered 50%
- The crossover limit applies to the full team roster entered into an event, not just those performing in the program.
- This applies across all categories except for Synchro9, including both ISU and non-ISU categories .
- Each skater may participate on no more than two teams in total. The two-team limit does not include the inclusive category.

Total Skaters	20	19	18	17	16	15	14	13	12	11	10	9	8
Crossover Skaters Permitted	10	10	9	9	8	8	7	7	6	6	5	5	4

### Qualification for BIS Cup / British Championships

To participate in the British Championships, a team must participate in at least one of the following events in the 2026-2027 Season: Blackburn Cup, Skate London, and/or Trophy D'Ecosse.

In extenuating circumstances where this is not possible, an exception must be requested from the Synchronized Skating Technical Advisory Committee (TAC). The TAC will review the request and agree if an exception will be granted.

# Illegal Elements/Features/Additional Features & Movements

## All Categories

### Short Program and/or Free Program

- Illegal lifts as defined in ISU Special regulations & Technical Rules: Rule 990
- Back spirals through the Axis of Intersection
- Unassisted/solo back flips
- Split jump through the Axis of intersection.

### UK Rules

- No somersaults movements where the head comes in contact with the ground
- No cartwheels

## Junior & Senior

### Short Program

Lifts of any variety unless required

## Advanced Novice, Basic Novice, Mixed Age, Beginner, Juvenile, Pre-Novice, Pre-juvenile, Pre-Mixed Age, Adult , Inclusive

### Free Program

- Lifts of any variety
- Vaults
- Un-sustained lifts

# Frequently Asked Questions

## **At which date do skills requirements need to be met to be eligible to compete?**

The skills level requirement must be met at the closing date for event entries. An example below: An event's entry closing date is 5 October and a skater has a skills test scheduled for 20 October in advance of the event on 31 October. The skill level requirement would be the level at the event closing date (5 October) and would not include the result of the 20 October skills test.

## **What does 50% of the team mean for crossover skaters?**

Please refer to the table which outlines the numbers on page 6

# Appendix I: Category Progression Map

- Key**
- BIS Cup – no age restrictions
  - BIS Cup – age restrictions
  - Championship
